

SURGEX®

THE MOST TRUSTED NAME IN POWER PROTECTION

SX1215RLi

SURGE ELIMINATOR & POWER CONDITIONER

- Advanced Series Mode® Surge Protection
- SurgeX ICE® Inrush Current Elimination
- Front Panel Littlite® Connectivity
- Impedance Tolerant® EMI/RFI Filtering
- COUVS® Catastrophic Over/Under-Voltage Shutdown

The SX1215RLi is designed for broadcast / recording studios, custom design/ build installations and sound reinforcement applications.

The unit has front-panel connectors and a dimmer control for 2 Littlite® gooseneck lamps.

The SX1215RLi provides guaranteed surge protection and power conditioning for audio, video, broadcast and computer equipment. The units are 15-amp load-capable and have 10 industrial grade earthed IEC/AC receptacles (8 switched, 2 always on). A rear panel warning light will indicate incorrect polarity of the AC supply.

The unit features both common mode and normal mode Impedance Tolerant® EMI/RFI filtering, SurgeX ICE® -Inrush Current Elimination and COUVS® -Catastrophic Over/Under Voltage Shutdown for a complete power conditioning solution.

SurgeX Advanced Series Mode® technology is superior to conventional MOV circuitry or MOV-Hybrid designs and is completely non-sacrificial. Our zero let-through technology provides the most reliable protection available. It stops all surges up to 6,000 volts (unlimited surge current) without producing harmful side effects such as earth contamination or common-mode disturbances.
